Elden Ring Free For PC

GAME PLAY Elden Ring is a fantasy action RPG which was released on the 30th of July 2014 in North America and the 5th of August 2014 in Europe. The action RPG is developed by Zeboyd Games, an indie studio mainly known for its episodic action RPG series ELDEN WITCH with EA. Story The game is set in the Lands Between, a floating land that lies between the two worlds of Albion and Tamriel. The Lands Between is a strange land full of danger and dragons where a select few are appointed with the duty of keeping the balance of the world by instating regular, periodic trips known as "Salvo". Your mission in Elden Ring is to transport a legendary treasure known as the Elden Ring from the titular lands between to other lands; namely, Albion and Tamriel, and reach a destination with the help of a few allies. The story begins with a scholar called Vester, who seeks to find the lost journal of a long-dead scholar named Thurgain. By reading the journal, Vester is able to determine that a super weapon, known as the Elden Ring, resides in the very continent of Aeldaria, another land between. The scholar then heads to the continent of Aeldaria and finds a treasure box containing the Elden Ring. Using the Elden Ring, Vester's friend finds the elven princess Taryn, who is taken prisoner by a dragon named Magi. The dragon promises to release Taryn if she can be caught alive. The elven princess uses her magical powers to teleport them to the elven city of Aldain, where she is imprisoned. Using the Elden Ring, Vester's friend infiltrates the city of Aldain and meets another elf called Siroa, who is secretly following the dragon to its lair. Siroa then meets the young girl Xana and helps her escape the city. For reasons unknown to her, Vester must find the dragon, where she is being held captive by the wicked elf called Annus. She is then transported to the Dreamdark, where they are captured by a dragon riding on a vampire. After a three-day journey through the Dreamdark, Vester is released by the monster king Mankar Camoran, who happens to also hold the dark elf Zacheril captive. Zacheril explains his role in all this to Vester and agrees to help her find the elven princess. Zacheril, Vester and S

What's new:

The story begins in the Lands Between. The Story of Elden Ring warily begins with a young man's quest to obtain the sword that was the exclusive property of the first Elden Lord and whose name was converted into a "name of a god." The "Endless Might" Sword was forged to serve the first Elden Lord. When the sword was passed to the second Elden Lord, he acquired its power, and created five divisions in the Lands Between. This noble sword transformed mankind, and the world increased threefold. However, the first lords of the sword are no more, and the weapon is no longer wielded by Elden lords. Tarnished with the power, the sword is now forged by the champions of the Lords' world, known as the Dragon Knights. It has been passed down to the Dragon Knights' descendants, and the sword has become tainted. Even the descendants of the Dragon Knights are now capable of wielding the sword. No one dares to hope for a possible restoration!
