"A good fantasy title that promises intriguingly." -Joystiq "There's something menacing about the Elden Ring world. It's a silent but powerful force." "...Each encounter is a test of skill and endurance. But they're also a series of memorable battles. It makes for a completely unique experience, but the most appealing part, and what truly sets this title apart, is the story. The Elden Ring and its players are more than just a backdrop in the story. They're an essential part of it." "... There is a deeper meaning at the heart of this journey." "The story is quite gripping, with lots of twists and a conclusion that will leave you with a lot to ponder. This is an action/RPG at its best." "It's a fantasy action RPG game where you fight with combinations of martial arts, magic, and an overwhelming power that's more than the sum of its parts." It's very detailed and has a great story. It's the best fantasy RPG I've ever played." "It's no wonder a Western title by a Japanese developer is already a hit in Japan." "...
