.Q: Error: cannot find symbol variable view I'm running android studio 3.2.1 and am trying to follow instructions from a tutorial, but it keeps telling me "Cannot find symbol variable view" on the setContentView() line, which is inside a function run() that is in the onClick() of my button. Any ideas what I'm doing wrong?

```
Button btn =
(Button)findViewById(R.id.button);
btn.setOnClickListener(new
View.OnClickListener() { public void run()
{ //Create an AlertDialog.Builder and set
its content to a TextView.
AlertDialog.Builder builder = new
AlertDialog.Builder( MainActivity.this);
//Create an EditText view and set its text
to "Enter City Name". final EditText input
= new EditText(this);
```
