The lightest colors can be used as a transparent washes, and the darkest can be used to create rich, dark tones. China pastels are as rich in tone as oil pastels and they blend easier. These pastels are a great medium for using encaustics. They are a perfect medium for drawing and painting in the plein air, and they are an invaluable medium for rendering the colors of freshly painted walls. Use W&N PA paper, the Winsor & Newton Mechanical Medium, or W&N Water Pastel Papers to draw with the China Oil Pastels, or use China pastels alone on W&N Water Pastel paper. Be sure that you are using the same amount of pigment in water and paste pastels. It is not enough to stick the paper to the side of the tin, as there is no ink in the pastels. Instead, spread the pastel from the tin onto the paper using a wide brush, without any covering medium. Daily posts to your LinkedIn homepage. Publish your skills and topics of interest to your chosen networks every day. Your People Radar will inform you of those individuals that you might want to connect with. Your People Radar will inform you of those individuals that you might want to connect with. 8x Fewer people.
