
Configuration Tool Swe330a !!INSTALL!!

October 7, 2019 - SWE330A Configuration Tool. Education. LON-Bus via LON interface. Floor repeater panels. Parallel indicators or Synoptic / relays Data bus - wired (LAN) bus (LON-Bus interface) - is a set of conductors for connecting controllers with control and display panels. Data bus connectors are used to communicate with control and display panels and controllers. In the control and display panel, this is also called LON-Net. Up to five data bus connectors can be installed on each control and display panel. This means that they can be used to communicate with up to five control and display panels.
